

Omaha Cost Comparison

Not all care providers are equal. Far from it. Physician's Choice provides seniors and their families a complete understanding of the available options and help families maneuver through the challenges of the "system."

Our goal is to help seniors remain at home whenever possible. By providing companion care and private duty nursing we are able to accomplish this goal. If the senior in your life needs help with the activities of daily living, Physician's Choice has the staffing to handle all levels of care.

All Physician's Choice services are directed by registered nurses with no long-term contracts. All PCPD staff has passed thorough background checks. They are also licensed, insured and bonded and receive ongoing training.

We provide all levels of care – medication aide, physical, occupational, and speech therapy and RN level care. Because we are fee-based and independent, we will provide truly objective care recommendations. Our professional experience and knowledge of the industry allow us to offer these services at competitive rates and incomparable values.
